**Locofast**

**Jan 2021 – March 2023**

*SDE-1*

*Delhi, Delhi*

- Implementation of design and insuring user-friendly, visually appealing, and responsive application.
- Collaboration with colleagues and guide them to achieve the best performance of application.
- Developed a Razorpay payment screen for seamless online transactions.
- Integrated the Razorpay payment gateway into the front-end using JavaScript and API calls. Collaborated with the backend team to securely process and store transaction data.

**Newton School**

**May 2022 – Dec 2022**

*Mentor*

*Remote*

- Mentored 15 students in front-end development, guiding them through hands-on coding projects.
- Directed daily problem-solving sessions, resolving an average of 5+ operational issues per day, which is raised by student.

**Newton School**

**July 2020 – Dec 2020**

*Intern*

*Remote*

- Acquired skills in Full Stack Web Development and Problem Solving.
- Technical Stack learned: Node JS, React JS, Express JS, Mongo DB, HTML, CSS, JavaScript, and Bootstrap.e To-do

## Skills

**Frontend:** Vanila Javascript, Reactjs, Nextjs, Redux, SCSS, MaterialUI, ChakraUi, ContextAPI

**Languages:** Javascript, Python, Java

**Tools:** Git, VS code, Postman, Heroku, Netlify

## Projects

**Vision Blog** | *Vanila Javascript, tailwindcss*

- Architected and Created Vision Blog platform utilizing Vanila javascript and Tailwind. Integrated features for User, Blog, Role management, Search, Filtration, and Comment management, optimizing user experience and engagement.

**Admin Panel** | *NextJs, ReactJs, Javascript, CSS*

- Optimized the performance, SEO, and accessibility of the application by converting the admin panel from PHP to Next.js.
- Developed a system for admins to schedule test paper discussions and automated notifications via email and SMS.
- Implemented a feature enabling admins to create and upload custom email templates, resulting in a 40% reduction in time spent on manual email drafting and distribution for communications with students, faculty, and classroom teams.

**AI Tutor** | *NextJs, ReactJs, Tailwind CSS*

- Developed an AI Tutor with features for image upload, chat, and voice interaction for writing assistance.
- Integrated text-to-speech functionality to enhance user engagement and dynamic learning experiences.

## Certificates

**Problem Solving Certificate**

**Hacker Rank**

**FullStack Development**

**Newton School**

**Participate in IIT BHU Techfest.**

**IIT BHU**

**Certificate of Achievement**

**Locofast**
